The Built Environment – Neighborhood Conservation

WEBSITE CONTEXT – By 2040, the largest segment of the city’s housing inventory will be 25 to 70 years old. If residential areas are not maintained, causing structures to deteriorate and values to decline, the community will become less attractive to current and potential residents. While the city has developed innovative programs to address maturing areas, Plano must continue to pursue reinvestment in existing housing and neighborhoods to ensure long-term stability.

Many people find the city’s suburban character desirable as a place to live. Older neighborhoods typically provide the best opportunities for moderately priced homes. To ensure a variety of safe and walkable residential options are available, Plano will conserve and enhance established neighborhoods to preserve the city’s suburban character.

POLICY – Plano will conserve and enhance established residential neighborhoods through city programs, initiatives, and regulations that support neighborhood identity; ensure safe, walkable communities; and preserve the suburban form that contributes to the overall character and livability of the neighborhoods.

NC1) Establish programs and initiatives that enable homeowners to maintain and enhance their properties and neighborhoods.
